

Lathem Webinar on New Facial Recognition System

Written by Michael Hoover

Monday, 23 August 2010 20:12 - Last Updated Wednesday, 08 September 2010 17:46

Your Independent Time & Labor Management Association continues the next phase in industry education with the ITLMA Webinar series. The webinar has been rescheduled to **Wednesday, September 8th at 2:00 PM (ET) for our next webinar for **Lathem's FR700 Face Recognition System****

▪ The **FR700** is a complete time & attendance and access control system using **contact-less face recognition technology** to instantly identify employees. The **FR700** provides a **hygienic alternative to fingerprint readers**, while still **eliminating "buddy punching"** and the need for cards and badges.

Contact tburks@lathem.com for more information.

Lathem FR700 FaceIN Product Overview

Wednesday, September 8, 2010 2:00 PM

1. Click here to join:
