uAttend hosts spotlight presentation on their cloud-based time and labor management solution.

The uAttend Employee Management System by ProcessingPoint redefines how small businesses handle time and attendance. More and more, small businesses are seeking out affordable web-based solutions for business needs.

The uAttend system is the first product in the time and attendance category to deliver what small businesses need: low upfront fees, easy-to-use service, and universal access.

Unlike traditional solutions, uAttend is:

- Extremely Affordable – 65 to 80% LESS than the competition.
- Plug 'n Play – No software to install, cables to run, devices to configure.
- Simple – All the power a small business needs, no clutter or waste.
- Available – Access and use employee data anywhere, any time. • Expandable – Unlimited employees, unlimited devices.
